Good afternoon [scribe],

This is your Heavenly Father Jesus that is here with you and is providing you with the love and guidance to write down the words that I wish my children who will read these messages to have, so that when they read these messages they will be inspired to spread my teachings and do acts of love.

Today, I wish to speak about the **importance of brotherly and sisterly love**. It is my wish that you spread the words that I provide through my scribe to as many of your brothers and sisters as possible.

My words represent my love and my light. They are the spiritual food that your brothers and sisters require in this dark world that is craving my love and light. **By spreading my teachings you are acting or performing brotherly and sisterly love for those that you share these teachings with.** It is my will that this be so. That you share and spread these teachings far and wide. I am not providing these messages through my loyal scribe that you only keep these messages for yourselves. They are meant to be shared. **The messages that I have provided so far, as well as the messages that I shall provide in the future, shall form a body of work that are meant to be read and provide inspiration for many future generations of my children.**

The communications that I have provided thus far through my scribe have been a prelude or preparation for the main body of work that he will write for me. It is this body of work that will form **a spiritual textbook for the future generations of my children on the earth plane.** This book will fill many of the gaps in the current teachings of Christianity and correct many of the errors that have crept into Christianity over the centuries since I walked on the earth plane. It is my will that my children have the truth regarding my teachings. It is also my will that my teachings should be pure so that my children who read them should have the truth and be guided on the true path back to me their loving heavenly Father.

The book or textbook that my scribe shall write shall be focussed on correcting all errors and fallacies that have crept into the bible. Much of what is given within the bible, I gave to my children at the time in the form of **parables**. The reason for this, the reason why I could not provide them with a literal interpretation at that time in human history, was because their **souls** were still **weak and immature**. Perhaps the best way to explain this my dear ones is that they and their souls were still like small children. You cannot provide university level or tertiary education to a small child because they are simply not mature enough. And this is exactly what the state of the souls were of the children who lived on the earth plane as the time that I walked on the earth plane. They needed to mature, they needed to experience a number of lives before their souls were ready or mature enough to accept the literal meaning of my teachings. This is the real reason why I spoke and taught my children on the earth plane, when I walked among them, in parables at that time.

The time that I lived amongst my children on the earth plane was the **First Era** of mankind. The time when I resurrected and returned to our spiritual home from Pentacost Sunday until my return on the earth plane is the **Second Era**. The time from my return onwards my dear one's is the **Third Era**.

Each Era corresponds to the maturity of the souls of my children on the earth plane. During the first era, the souls of my children were immature like little children. During the second era in human history, my children's souls had matured slightly and were like teenagers. During our times now, your souls are becoming adults who seek a university level of spiritual education. There was **no point my dear ones in my giving you the literal meaning of my teachings before now as your souls were immature and were not ready to grasp the spiritual depth of my teachings.** To fully understand and accept the Truth and Depth of my teachings, a soul must be spiritually ready and mature. This is the reason why I taught in parables previously and requested my apostles and my children that they taught, to ponder on what they were taught so that their souls could begin to grasp the many layers or levels that lay hidden in my teachings. But, the time has now come whereby what has thus been hidden must be provided to my children because now their souls are ready. Now they can grasp the spiritual truth and depths of my teachings if they ask for my help. **This is the reason why my dear ones that mankind is now ready to receive the next literal revelations** from me their loving Heavenly Father Jesus.

The book of textbook that my scribe will write on my behalf will explain clearly and literally what all my teachings mean. In this way, it will provide the spiritual food that mankind so badly needs in these **end times that will commence shortly.**

It has always been my aim that my teachings would be spread and be known all over planet earth. **The writing of this book and the spreading of the teachings within it, will fulfil my aim of having my holy word and teachings being brought to "the four corners of the earth".** This old expression simply means that I wish my teachings to be available to all my children on the earth plane no matter where they are located.

You will see my dear ones, that every thought and action of mine is based upon love for you my dear ones, for your salvation and return back home to me in my heavens from where you originated.

Go in peace my dear ones and know that your Heavenly Father Jesus loves you all, each and every individual that I created above all else. This is no greater happiness for a father to see the safe return of his whole family back at home from where they originated.

Bless you my dear children. Love – your Heavenly Father Jesus – Amen.
