Good evening [scribe],

This is your Heavenly Father Jesus that is here with you, my dear [scribe]. Today I wish to speak about learning, my dear ones. You are here on the earth plane to learn a number of things and to share those things that you have learnt with your brothers and sisters. **The whole purpose of your existence on the earth plane is to learn and grow as individuals and in turn to mature your souls.** This is something that not too many of my children are aware of. When you were in my heavens preparing yourself for your life on earth, you had to make a number of decisions. Firstly, you had to choose whether you wanted to come to the earth plane in the first place.

Some of you made the choice to come to further develop and grow and mature your souls. This is by far the most common reason that most of my children choose to come to the earth plane. Through the experiences that they choose to have on earth they learn a great many things. These experiences can be happy experiences or sorrowful ones. Through these experiences their souls learn certain things and grow and mature throughout their lives. All the experiences that they have on the earth plane are pre-programmed, so to speak. You are shown what your life will be like in fine detail before you choose which body or life you will live. Nothing is done by force, my dear ones, as I cannot interfere with your freedom of choice.

My children choose to come and have a physical life because they know that it is a way to fast track their path to perfection, if they live their life according to the example that I gave when I walked on the earth plane. Some of my children choose to develop themselves in my spiritual spheres within my spiritual kingdom. But this particular path is a very long one, a very individual one. By choosing to live a physical life as a human, your opportunity to mature your soul is accelerated through the pre-programmed experiences that you have throughout your physical lives. Nothing is left to chance, my dear ones. I know what is best for the growth and development of each of my children. This is why, when a chance is given to my children to come and live a physical life on the earth plane, they see it as a great privilege because the number of my children is many and the number of physical lives that can be lived on the earth plane are but a few. It is true when people say that they are waiting in queues in spirit to live a life on earth. It is for this very reason that it is a great privilege that you were given your earth life that you need to make the most of this opportunity to learn and grow and mature your souls to the maximum extent possible. Those souls who were not able to be given a physical life on earth know that their path to perfection will be much, much longer. This is why you must be aware of the privilege that you have been given and make the most of it.

Take this opportunity to practice my teachings in your daily lives. Learn as much as you can about me, your loving Heavenly Father Jesus and my teachings of love and forgiveness. Learn to love me above all else and your brothers and sisters like yourselves. Learn to practice what has been preached to you and in turn what you preach to others. Do loving

and kind deeds. This is the way to learn as much as you can on the earth plane. This is the way to mature your souls and live your lives the way I want you to. **Only through putting my teachings into loving actions is the pure path to perfection of your souls. This is the shortest and most narrow and most direct path back to me in my heavens where I await you.** Please do not squander or waste the great privilege that you have been given in the physical life I gave you on the earth plane.

The second reason in which I give some of my children an opportunity to live a physical life on the earth plane is because I have sent them to be teachers or helpers on the earth plane. Some examples of my children that were sent to the earth as helpers and teachers include Mother Theresa and Pope John Paul the second. Each of these children had their missions assigned to them before they came to the earth plane. By living their lives in loving service of their brothers and sisters they were able to teach and inspire many people throughout the world, by their examples of loving me above all else and by loving their brothers and sisters like themselves through the loving actions and kind deeds that they performed right throughout their lives.

The third reason why I allow some of my children to come and live a physical life on the earth plane is to make up for errors or grave sins that they committed in past lives. Through my mercy I allow certain individuals to live their physical life by doing kind deeds and providing selfless love and service to their brothers and sisters, sometimes under the most challenging and difficult situations. In this way, they get the opportunity to balance their individual karma. Good deeds must be done in their present lives to make up for the negative deeds they have committed in past lives. My dear ones, everything must be accounted for. This is why I ask you to be conscious of your thoughts and deeds. Ensure that your own personal ledger of good thoughts and good deeds outweighs the negative ones in your life. Be strict with your thoughts and passions in your life to ensure that you maintain control over them. I permit you to be tempted to a certain extent so that you can grow through controlling your passions and personal weaknesses. **This is the whole point of your physical life, maturing your soul through mastering yourself and your passions. This is the path to perfection, my dear ones.**

Life on the earth plane was not meant to be easy because the prize, my dear ones, is great. You cannot fully appreciate, while you are on the earth plane, what joys and wonders await you in my heavens. This is why I encourage you, my dear ones, to make the most of your earthly lives, to learn the most you can through your experiences because I have tailor made all your experiences in your lives exactly for the things that you individually need to mature your soul. **Bear your own personal cross with humility,** knowing that your reward in my heavens for living a loving and caring life of service to your brothers and sisters is going to be great, my dear ones. Turn to me in all your difficulties and ask for my help, and I will assist you by carrying your cross with you every step of the way in your lives. I love you greatly my dear ones and remember that the trials that you face in this short test life will be repaid to you by your loving Heavenly Father Jesus in the great joys and bliss we will share together in my heavens eternally.

Go in peace, my dear ones - Amen
