

Wednesday, 9 July 2014

My dear scribe, it pleases me to see you are taking your work as my scribe seriously, as this work is very much needed by all mankind.

To you my scribe and to all my children who will read these messages, **tonight I wish to speak about hope and charity. These are two positive attributes which I would like all my children to practice in their daily lives.**

I wish you all my dear ones, to be hopeful and joyous every day. Hope is that quality in mankind which always seeks the positive to come in the future. You, my dear children, have every reason to be hopeful. **Although the changes that are shortly to come to the earth plane will cause a lot of suffering for mankind, you should nonetheless be hopeful as these changes will herald in the dawning of a new age for mankind. This new age will see the beginning of a new development period for mankind. It will also see the dawning of a refreshed or rejuvenated mother earth that will have all the toxins and negativity left behind from previous generations of mankind removed from her whole face ie. the whole face of the planet will be re-shaped and re-moulded.**

The surface of the planet will be re-vegetated by me and I will cause the creation of many new species of plants and wildlife to once again cover the face of this beautiful planet. In many respects, **the old face of the planet will be barely recognisable after I have re-modelled the face of the planet. These changes are necessary as the earth will be entering into a new development period.**

Planet earth is currently choking under the weight of environmental damage caused to the planet by ignorant mankind who have been influenced by the adversary, to cut down the forests for the pursuit of blind profit and the use of the planet's scarce resources, without caring for the impact of the delicately balanced environment.

My dear children, **mankind under the influence of the adversary, has now passed the point where the damage to the environment cannot be reversed by human means. This will mean that mankind will soon start to feel the full wrath of the elements of nature due to their blind pursuit of personal gains and profit. There will be an environmental catastrophe that has never occurred in human history before.** This will not be caused by me, for I am a loving and caring God. This will be caused by mankind's ignorance of the delicate balance in nature.

Mankind's industrial activities are causing more and more pollutants of every kind to be placed in the air. This will shortly cause the atmosphere to reach a saturation point with a certain type of combustible substance that your scientists are not even aware of. When the air has reached the saturation point with these chemicals in industrial cities in China and Japan. This will cause the air to ignite in these cities and cause the total devastation of those cities. Many of my children on the earth plane in those cities will die as a result of the massive explosions that will occur when the air ignites in these cities. Many of these cities will be totally devastated/levelled.

My dear children, I do not want you to think that I take any joy or satisfaction from these events occurring. They will occur due to the ignorance of mankind in their blind pursuit of profits without considering the environment which is in a delicate balance with mankind.

Some of you, my dear children, may well ask, **when will this event happen ? It will occur in the months of May or June in the year 2016.** I have given you these dates through my loyal scribe so that you can understand that there is not much time before very material events start to happen on the earth plane. **I want you to also understand that I wish you to tell you brothers and sisters about these messages and to spread the word that your brothers and sisters need to turn to turn to me and ask for my love, guidance and protection in the dark days to come.**

This ecological disaster will have some positive effects for mankind in that a lot of the diseases and sicknesses that have plagued mankind in the past will no longer appear again on the earth plane. This is because the atmosphere will be cleansed in the explosions that will result from the saturation of the atmosphere with the pollutants caused by large scale industrial activity.

Following the ecological disaster, mankind will learn a lot from their mistakes and will become very considerate about the ecological impacts of their activities.

This ecological disaster will not occur all over the world simultaneously, but the resultant suffering that will come to mankind through starvation and low crop yields will be great. The whole of the world's food chain will be interrupted as a result of this event. **This will result in spiralling food prices and food shortages all around the world. Many of my children will lose their lives in those countries affected by this disaster directly, as well as the neighbouring countries.**

My dear children, I cannot interfere with your freedom of choice, but **I can greatly reduce the length and severity of the suffering that follows this event through your heartfelt prayers.**

I cannot prevent these events occurring in May or June of 2016 but I can greatly reduce the suffering that will follow through your prayers.

My dear children, there will be many other children of mine at the time that this event occurs that will begin to question their morality as a result of witnessing these events or living through them. For many of them, it will be the first time that they begin to think about an afterlife. **It is through the hardship that they will endure that they will learn the hard lessons about the evils of selfishness, arrogance, pride and hatred in relation to their fellow brothers and sisters.** They will reach out to their brothers and sisters and realise that we all depend on one another to survive. **More importantly, they will learn about the great satisfaction that they can get by helping their brothers and sisters through the adverse circumstances that they find themselves in.** This my dear ones, will be very good for the development and growth of their souls. **Had they not gone through the suffering, they would never have progressed on the earth**

plane. As you can see my dear ones, everything that happens on the earth plane has its divine purpose.

Regarding the dates of May or June in 2016 that I have foretold through this scribe for the occurrence of the ecological disaster event, please note that **I cannot give you the exact date. The reason for this is that all events that happen**, including this one that is caused by mankind's ignorance of the delicate balance that exists in nature, **are dependent on the learning and progress of all children that are affected or impacted by this event. If my children can collectively learn and grow more as individuals by delaying this event to the latter month, then it shall occur in the latter month. Every event that occurs in the physical earth plane is all tied into the status of the learning and development of my children impacted by these events.**

Some of my children reading these messages may think that I am an uncaring God because I will allow such a disaster on a scale that has not been experienced before by mankind. My dear ones, if I had interfered with this man-made disaster, I would potentially lose even more of my children to the adversary, who will not stop until he has obliterated this whole planet and all its occupants. This tragedy which will come, will still turn many of my children back to me as they will see, that I will personally lead them and guide them to greener pastures in these difficult times if they turn to me and ask for my love and protection in the challenging times that will follow this ecological disaster.

This is why I say to you my dear ones, **pray, pray, pray so that I may spare you and your families from all the events that this loyal scribe will foretell. Pray for your brothers and sisters that are going through hardships in their lives and help them any way that you can. In this way, you will be demonstrating by your example that you are living your lives as true Christians in that you will be showing in your example and your actions that you love me your Heavenly Father Jesus above all else and you are showing your love for your brothers and sisters by the loving service that you will be providing to them.**

Remember my dear ones, the time is very short until all these changes and difficulties will come to mankind. Your sincere prayers for your brothers and sisters can greatly reduce the severity and length of these events by enabling me to act in mercy to help your suffering brothers and sisters.

Go in peace my dear children to love and serve and assist your brothers and sisters in the difficult times to come – Amen.
